CAREER OBJECTIVE

Enthusiastic and hardworking MCA fresher with good foundations in programming, software development, and databases. Seeking an opportunity as a developer to apply my technical skills, contribute to real-world projects, and learn new technologies within a collaborative and growth-oriented environment. Committed to continuous learning, problem-solving, and delivering high-quality results.

SKILLS

Programming Languages: Python(Basic)

Web Technologies: HTML, CSS, JavaScript, React (Basic)

Database: SQL, MongoDB (Basic)

Tools & Platforms: VS Code

Operating Systems: Windows

PROJECTS

BloodLink – MERN Stack Web App

- Built a full-stack donor–recipient management platform using MongoDB, Express, React, and Node.js.
- Implemented JWT-based authentication and secured backend API routes.
- Designed user-friendly interfaces for login, signup, dashboard, and donor/recipient filtering.
- Optimized database queries for faster data retrieval and smoother user experience.

EDUCATION
